Taylor's International School Kuala Lumpur is offering a personalised English language programme for learners to become confident and proficient in English, enabling them to join other subject lessons in the school.

The Essential English Programme will be taught to small groups of students in a positive and inclusive learning environment, by dedicated teachers who are specially trained in teaching English as a Foreign Language.

During the Programme, students will be:

- Working in intensive English classes
- Attending mainstream classes for PE, Art and Music (Year 5 - 6), or PE, Drama, Art, Music and CCA (Year 7 - 8), thereby integrating academically and socially into the school in preparation for transition from these English intensive classes to all mainstream classes.
- Attending assemblies, cultural celebrations and schoolwide events.

The Programme:

The programme is designed to enhance students' English language skills in four key areas: speaking, reading, writing and listening. It is specifically developed to increase their confidence and proficiency. At the end of the programme, the students are given the option to enter the world-renowned Cambridge Assessment English Tests to benchmark their language skills against external standards.

Since the programme is linked to individual needs, the length of the course varies from student to student. Their progress will be monitored and regularly reviewed. When they are ready to be immersed in mainstream classes, they will spend less time in the Essential English Programme.
